Sub: Letter of Collaboration with AICTE- IDEA Lab

It is with great enthusiasm and interest that we support of Manufacture of various kinds of medium and high voltage equipment for Power T&D all individually designed Erection and installation of electrical equipment to the AICTE- IDEA LAB that is being proposed by Elektrolites Power Pvt Ltd.

The commitment & support establishes an industrial training/internship/workshop partnership between Elektrolites Power Pvt Ltd and Poornima Institute of Engineering & Technology.

Elektrolites Power Pvt Ltd, is a renowned manufacturer and innovator in the field of power transmission and distribution and has played a pivotal role in its growth in India over the last five decades. One of the leading manufacturers in India, it offers a comprehensive range of electrical equipment like Railway Isolators / Disconnectors, Surge Arresters, Load Break Switches, SPS parts, Air Break Switches, and Fault Passage Indicators from 11 kV to 420 kV. Elektrolites is also known for its in-house R&D center for designing and type-testing various medium and high voltage switchgear. We have been supplying solutions for Railways since 2016 and are approved from Indian railways, RDSO, CORE and Dedicated Freight Corridor Corporation of India.

We are expecting that the institution will provide us access to the AICTE LAB if/when required for the research work in the benefit of the students/ industrial growth. Also we are sponsoring rupees 10 Lac for development of this Lab. Together, we both enter into this industrial commitment & agreement to mutually promote the manufacturing process to the industry & provide an internship/training program for the students.

Thank You for Accepting our Proposal
