

# **WORKSHOP ON AUTOCAD SOFTWARE**

20 October, 2016

Civil Engineering Department of PIET has organized a workshop on AUTOCAD software under the supervision of Mr. Lahoti from CESA academy (Civil Engineering Software Academy) Pune.

Objective:- It's a part of academics where students work with computers. The significance of AutoCAD Lab can be highlighted as:

- To offers a familiar environment to students with the AutoCAD software.
- To know some knowledge about specific tools and features of AutoCAD.
- To familiar with some AutoCAD commands.

Lab conduction were focused on topics such as AutoCAD and Introduction of AutoCAD, DRAW Command, Draw Command, Modify Command, Drafting Setting, Layers, Parametric Constraints, Isometric & perspective View

Total participant were 63 in which they were divided in 3 batches of 21 participant in one group (i.e., B<sub>1</sub>, B<sub>2</sub>, B<sub>3</sub>) and classes organized according to batch at different time. In each batch 4 labs are completed in which line, types of line and other shapes commands (i.e., poly line, circle, polygon etc.) covered.
