5-day faculty training programme on “Application Development and Deployment using IBM Bluemix”

(19th June – 23rd June, 2017)

Venue: Poornima Institute of Engineering & Technology, Jaipur

Summary Report

A 5-day faculty training programme on “**Application Development and Deployment using IBM Bluemix**” was organized by **Poornima JIET Education Foundation** from **19th June to 23rd June, 2017** at **Poornima Institute of Engineering & Technology, Jaipur**.

The training was organized under IBM Career Education Program which is a comprehensive software education program designed by IT professionals, for graduates, post graduates and experienced professionals to accelerate their skills and knowledge so that they succeed in this dynamic industry. The Program curriculum brings together the latest software content, real-world industry experience, hands-on lab courses and best practices, all into a single unique education program.

IBM BlueMix combines the strength of IBM's middleware software with third-party and open technologies to create an integrated development experience in the **cloud**. Using an open cloud environment, BlueMix helps both born-on-the-web and enterprise developers build applications with their choice of tools. With the ability to easily combine a variety of services and APIs from across the industry to compose, test and scale custom applications, developers will be able to cut deployment time from months to minutes.

In this training **20** faculty members of **Poornima Foundation** and **08** faculty members of **Jodhpur Institute of Engineering & Technology (JIET)** participated.

First day (19-06-2017, Monday) of the training was a warm-up session on pre-requisite of the workshop and the sessions were delivered by internal experts.

The training from **20th June to 23rd June, 2017** was imparted by IBM subject matter expert **Mr. Anupam Gupta, Application Consultant**.
