## **Report on “Information and Orientation of IPR” by Dr. Dinesh Goyal, IPR Expert**

**Date: January 17, 2018**

Intellectual Property Rights (IPR) provides a platform wherein unique innovations can be securely displayed without any fear of piracy which would help an institution to grow exponentially. Intellectual property is the product of the human intellect including creativity concepts, inventions, industrial models, trademarks, songs, literature, symbols, names, brands etc. Intellectual Property Rights do not differ from other property rights. They allow their owner to completely benefit from his/her product which was initially an idea that developed and crystallized.

Dr. Dinesh Goyal provided the individuals and groups with the information about IPR. He provided the knowledge and facts about the Intellectual Property Rights. This will help the future promising innovators to model their ideas into products with all the legal support and without the fear of piracy. He also gave the idea about basic necessities, its properties and other information needed about IPR.

The information and orientation about IPR will help individual to understand it in a better and simpler way which would further lead to betterment of ideas and products.
