Objective:

Village Adoption Scheme is to equip and familiarize the people, with the socio- economic dimensions of the rural communities, status of sustainable use of natural resources, changing perceptions & aspirations, priorities and innovative effort of the rural communities for sustainable development and; enable/inspire the community for self-help to roll out strategies, methodologies, processes to develop sustainably and create cohesive communities where every individual gets equal opportunity to realize his/her potential. Through this process the people learn, document the ups and downs of the process which can help them in revising strategies for better training and come up with new models of rural development for replication elsewhere by all stakeholders.

Our Agenda:

- To inspire the rural communities to dream, plan, mobilize forces and resources for sustainable development of each member who can realize his/her full potential and create such ecosystem for positive behavioral transformation.
- To seek positive transformation and to engender progressive changes in the communities through alternative development models that is participatory, sustainable and inclusive.
- To render service to the larger community by creating and sustaining a culture of cooperative living for inclusive and sustainable development.
- To empower marginalized and vulnerable groups in the village particularly the elderly, the women, the youth and the children of the community.
- To establish convergence models of resources, manpower to achieve comprehensive development in tune with people's aspirations and potential.
- To build partnerships and networking/tie ups with various agencies (NSS units, NGOs, industries, Public and Private sector, NRI) and industries working in and around the village/district for development of the selected village.
- To document new models of development of rural communities/villages/cluster of villages and use in trainings & research.
- Identify new researchable areas for solving problems.

Expected Outcome:

- Availability and accessibility of basic amenities and services and achieving Sustainable Development Goals.
- To generate awareness on gender issues and social issues like literacy, health & hygiene, sanitation, safe drinking water, livelihood options etc.
- Creation of sustainable livelihood opportunities

- Access to rights and entitlements
- Make the adopted village a “knowledge hub” that can attract resources for the development of other villages in its vicinity.

Important Interventions

The important interventions may be detailed as given below:

Individual Development

- Including hygienic behavior & Practices (toilets, bathrooms and designated spaces for washing and drying clothes)
- Fostering daily habits including physical exercises and games
- Reducing Substance Abuse (alcoholism, smoking etc.)
- Gender sensitization
- Introduce the women to new technology and financial services including micro finance

Human Development

- Universal & equal access to basic health facilities (presence of a health card, location of health providers (public and private))
- Immunization
- Population groups by age & sex
- 100 % Institutional deliveries
- Antenatal, Postnatal, and Delivery care
- Food habits & Nutrition aspects (with a focus on children, adolescent girls, pregnant women and lactating mothers)
- Universal and equal access to education facilities
- Innovative smart schools, Libraries can be developed as resource centres with good children’s books
- Adult literacy

Community Development

- Community resource Mapping
- Awareness generation
- Environment
- Social mobilization
- Skill development in agricultural practices
- IEC about reproductive and health care services and vaccines
- Early childhood care and education (ECCE)
- Vocational and technical training for youth
- Encourage participation of community in water and sanitation management

Economic Development

- Promoting diversified agricultural and allied livelihoods
- Enhancing the knowledge and skills on different livelihood avenues among men and women
- Sensitizing the key community leaders on sustainable rural livelihoods
- Upgrading knowledge on technology infrastructure and equipment’s
- Orienting them on Value-chain based business partnerships and market linkages

Area Development

- Watershed development along with water literacy
- Road connectivity
- Housing & habitat development by promoting cost effective appropriate technologies.

IT enablement

Based on the VDP, the areas that are amenable for IT enablement should be identified and help in such enablement by training and hand holding. For example, e-panchayat, digital transaction can be ensured.
