### Slum Area Visit “Naya Savera, Jaipur”

- This line became much stronger by visiting a NGO, “NAYA SAVERA” which is an overall community development program related to children of slum area. Naya Saveria is a non-governmental organization that aims at working towards providing a healthy, nurtured and nourished lifestyle to people who are deprived of facilities due to poverty and a lack of opportunities.
- To strengthen this feeling and to sensitize today's youth, a group of 36 students of I Year, Civil Engineering, Poornima Institute of Engineering and Technology visited “Naya Saveria” located at Jhalana Industrial Area, Malviya Nagar, Jaipur on Friday, November 16, 2018 accompanied by two faculty members; Dr. Sama Jain and Mr. Ashok Kumar.
- As a gesture of humility, some snacks and study materials like copies, pencils, erasers etc. were gifted to the children of Naya Saveria. All were very happy to receive the gifts sponsored by PIET
- Outcome & Learning-This visit gave the learning that, 'One should be happy with what one has'. So, everyone should take an initiative to help children like them because they are the future of our country. And they also have the potential to prove themselves.
